Distribution Industry

WORKWAVE
Route Manager

Partner Logo Goes Here

Have you heard the WORD ON THE STREET?

Now more than ever, your customers have greater expectations for your food distribution company. You have dynamic routes to plan days in advance, yet you need to make adjustments at any given moment. Cost and time efficiencies are crucial to ensure that your goods retain quality and freshness. That's where WorkWave Route Manager 360 and 360+ comes in! See how our route planning and tracking software solution can set your business up for success.

HERE'S WHAT OUR CUSTOMERS WANT*

Operational Efficiencies

- Alignment with warehouse picking and packing and delivery drivers
- Efficient route planning that is dynamic
- Integration of delivery orders with route management software

Reasonable Time-Windows

- The ability to provide delivery time windows that are one to three days out

Proof of Delivery and Live Tracking

- The ability to monitor routes, record breadcrumbs, and tweak plans every step of the delivery process
- Real-time visibility of delivery status, including proof of delivery, live ETAs, and communication with warehouse

Visibility Into Business Operations

- A 360 view of food delivery tracking to ensure freshness of goods
- Integration of delivery orders with route management software

*IBIS World Grocery Wholesaling in the US Report

Our ultimate goal is to help food delivery businesses reach their

FULL POTENTIAL

WorkWave Route Manager is cloud-based software

that creates efficiencies with an intuitive user interface that simulates routes within minutes with cloud-based algorithms, seamlessly integrates with any order generating system with flexible APIs, provides detailed reports with analytics dashboards, and more. Need to track your delivery drivers and vehicles? We offer tracking solutions too!

Don't just take OUR WORD FOR IT,

here's what our food delivery customers had to say about our product.

"In a matter of minutes,

WorkWave Route Manager looks at our daily deliveries and provides optimized routes and incorporates traffic patterns, road restrictions, service times, and delivery density so that our fleet utilization is maximized."

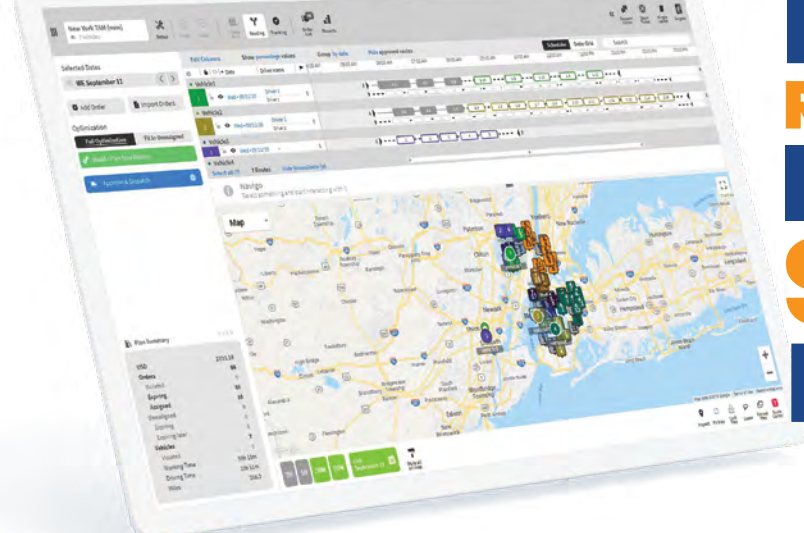

- Kevin Kurzendoerfer, Relay Foods Chief Operations Officer

"I like the ease of use

and integration with other systems, the ability to test different delivery scenarios, and the flexibility to see different delivery options. Route Manager helps solve challenges with routing in NYC and saves us time and money. It provides us with the ability to on-board new customers faster by analyzing the best delivery days."

- Beth G, VP Operations, Gotham Greens
