## ESSENTIAL FUNCTIONALITIES needed for today's DELIVERY COMPANIES

### Driver Mobile App

- Driver & Back Office Communication
- Proof of Delivery (Including Signature, Photo, Notes and Voice Recording)

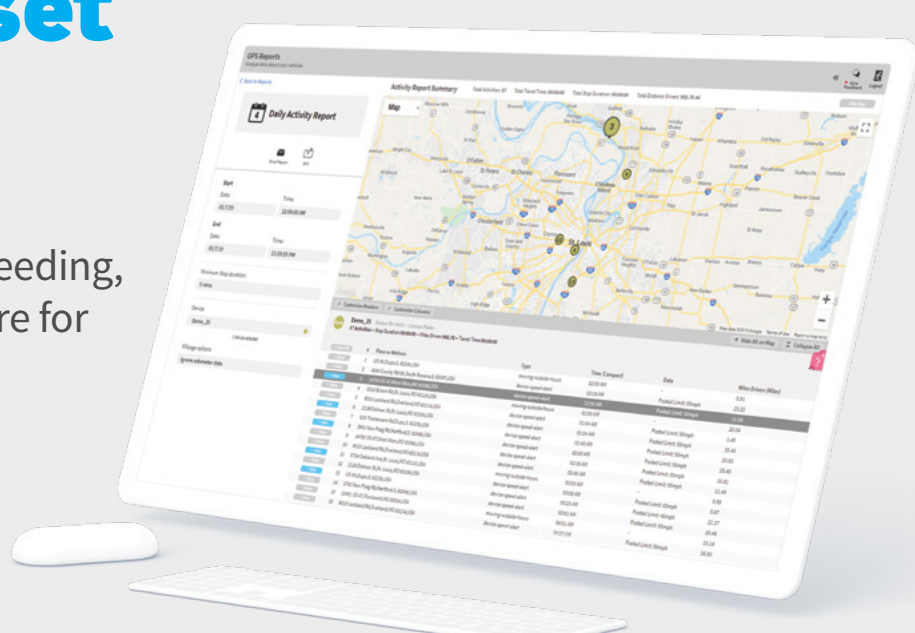

### Customer Notification Capability

- Live ETA Tracking Link
- Email & SMS Messages (Service Day, Almost There and Status Update)

### Driver and Asset Tracking

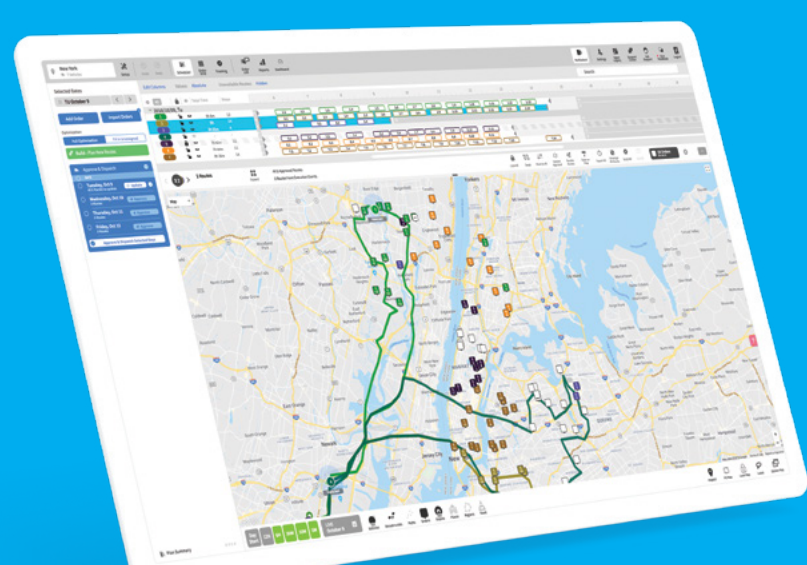

- Driver Breadcrumb Visibility
- Driver Behavior Visibility (Speeding, Idling, Hard Braking, and More for Better Vehicle Maintenance)
- GPS Tracking

## Don't just take OUR WORD FOR IT, here's what one of our courier and local delivery customers had to say about our product.

“With WorkWave Route Manager, we can track drivers, locations and time windows from both desktop and the mobile app. Our drivers use the mobile app for routing and scheduling, which notifies the dispatchers for proof of delivery, ensuring that our delivery schedules are being met and helping us to track service times. Bottom line, I would recommend Route Manager because of the **ease of use, saving us time, money and resources.**”

Will McCauley, Transportation Supervisor, DHL Westerville OH
