Subject Line:	Interested in Driving Operational Efficiencies?
Body Text:	<p>Now more than ever, you need technology to keep you competitive and successful. The right route planning and tracking tool can create a big boost in efficiency for your trucks, as well as provide real time visibility of your drivers and assets.</p> <p>See how WorkWave Route Manager 360 route planning software can set your Waste Management business up for success.</p>

EM 2

Subject Line:	Wish you had real-time visibility into your trucks?
Body Text:	<p>Planning routes optimally with real-time visibility in the field is essential to your Waste Management business. Knowing where your trucks are at any moment and being able to adjust routes in the event of a last minute change can have a real impact on your business operations. Better planning can allow you to operate more efficiently and access to real-time data can lead to more informed decision making.</p> <p>Route Manager helps The Compost Crew ensure their plans are efficient and accurate and their teams leverage actual data from routes to validate and/or improve routes. With Route Manager GPS Tracking The Compost Crew says “We’ve gained a new layer of visibility and know exactly where our drivers are at any moment. It’s become an invaluable part of our business.”</p>
